Work Experience

Web Development Teaching Assistant

BrainStation
June 2019-Present

- Led students to success by rethinking flawed logic in projects throughout the cohort, and in particular during capstone weeks, where students need help going in a variety of directions that were not covered in class
- General code refactoring when students have gone in the wrong direction and guided students to reset their paths
- Facilitated discussions and addressed student queries through pod sessions, and in daily open studios
- Created and facilitated mini code-alongs to reinforce concepts introduced in class
- Marked students' weekly assignments and provided valuable feedback while completing admissions tests for next cohort
- Created daily challenges and white-boarding questions to assist with learning and understanding of the current weeks' topic

Fund Accountant

CIBC Mellon
April 2018 – March 2019

- Ensure accurate valuation (net asset value) of Fund Portfolios through verifying trades, cash transactions, corporate actions, and ensuring correct pricing securities
- Audited the work performed by other team members for the department to ensure accuracy and compliance with department and client instructions
- Calculated daily income accruals, expenses, interest, and dividend payments for each Fund. Ensured proper postings to the Fund and analyzed daily changes in compliance with client exception tolerances
- Prepared daily and monthly distribution reports for clients as well as reinvestment calculations

Quality Assurance Agent

Money Key
June 2019-Present

- Audited loans while complying with business and state regulations through analysis of pay frequency and averages, results in highest quality lending due diligence
- Consistently ranked highest amongst colleagues in number of audits completed
- Created and lead a training program to assist new employees familiarize themselves with company processes
- Generated & analyzed trend reports for sales leads and customer service calls, which led to identification of a need for stricter verification policies and customer education
- Process debits and credits batches to meet the daily deadline. Audit batches for accuracy and confirm with bank
